READ: “What Self-Awareness Really Is (and How to Cultivate It)”
Harvard Business Review by Tasha Eurich (January 4, 2018)

OPTIONAL QUIZ: Do You Lead with Emotional Intelligence? *Harvard Business Review* and read assessment (Jun 5, 2015)

The image shows a screenshot of a podcast player interface for Harvard Business Review. At the top left, there is a menu icon and the Harvard Business Review logo. To the right is a shield icon. Below this is a red header bar with the text "HBR IdeaCast" and "How to Become More Self-Aware". On the right side of the red bar are three circular icons: a refresh icon, a pause icon, and a play icon. Below the red bar are two tabs: "Details" (which is selected) and "Transcript". Under the "Details" tab, the date "June 12, 2018" is displayed. The main text describes a podcast by Tasha Eurich, an organizational psychologist and executive coach, discussing self-awareness. It mentions that few people are truly self-aware and that it is developed through feedback and introspection. It also notes that Eurich is the author of the book *Insight*.

How to Become More Self-Aware

Details Transcript

June 12, 2018

Tasha Eurich, an organizational psychologist and executive coach, talks about why we all should be working on self-awareness. Few people are truly self-aware, she says, and those who are don't get there through introspection. She explains how to develop self-awareness through the feedback of loving critics and how to mentor someone who isn't self-aware. Eurich is the author of the book *Insight*.

Personality testing

Many employers use personality testing in their recruiting and hiring practices (60-70%, according to Forbes).

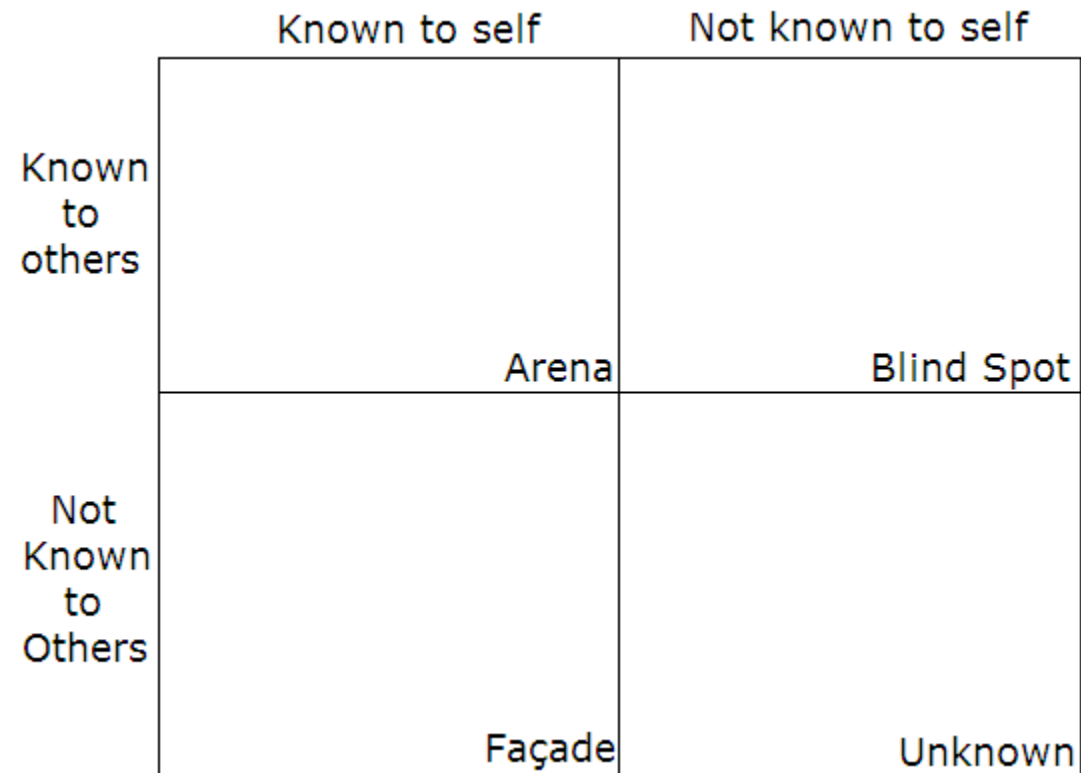

Workplace Personality Tests

- **Myers-Briggs Type Indicator** - widely used; based on idea that humans have 4 primary motivators – sensation, intuition, feeling and thinking.
- **DiSC** – behavior assessment tool, developed by industrial psychologist. Centers on 4 personality traits: dominance, inducement, submission and compliance.

Johari's Window Model

- Used to identify strengths, blind spots and areas to explore.
- Helpful for gaining feedback in teams.
- Developed by Joseph Luft and Harry Ingram in the mid-1950s.

Johari's window model

The Johari Window

[https://www.youtube.com/watch?v= aF-olRMuoQ](https://www.youtube.com/watch?v=aF-olRMuoQ)

Advantages of the Johari Model

- Helps people better understand their interpersonal communication and relationships.
- Can be used in (business) group dynamics, team development and intergroup relationships.
- Builds self awareness through both disclosure and feedback.
- Leads to a greater understanding of yourself as well as a greater understanding of others.

Learning Style Models

VAK Learning Styles

Kolb's Model

Mumford's Learning Styles

....and many others.

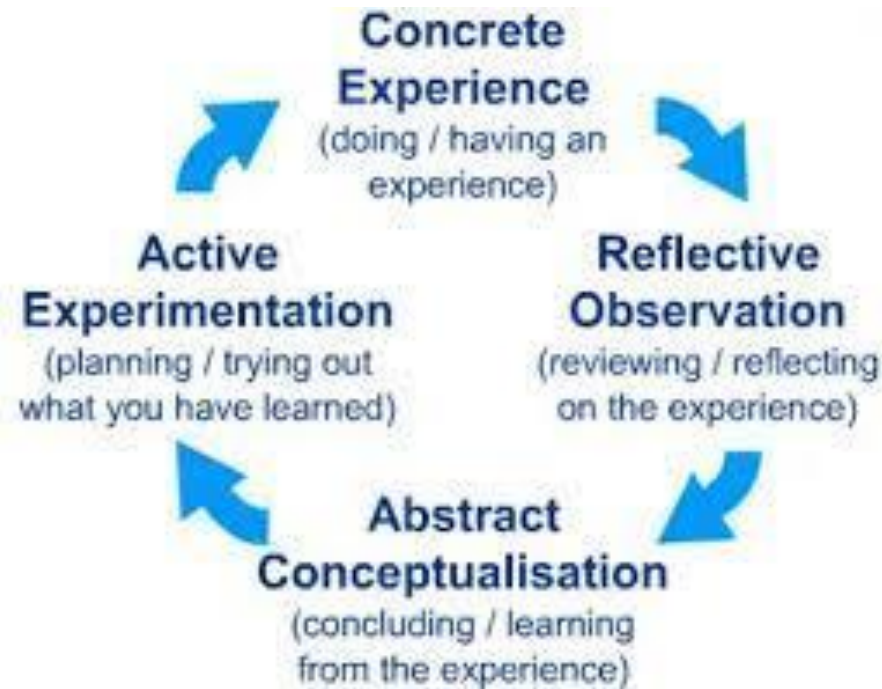

VAK Learning Styles (Barbe et al.)

- Visual
- Auditory
- Kinesthetic

(Graphic: Whitfield, GPS Strategies)

Kolb's model - "Learning is based on experiences."

(Kolb and Fry, 1975)

Other Learning Models

Mumford's learning styles
-Further developed Kolb's model.

Awareness of different **personality and learning models** can be useful for both leading a team or contributing to one.
